## National data opt-out policy

Abercrombie Dental Practice is one of many organisations working in the health and care system to improve care for patients and the public.

Whenever you use a health or care service (A&E or community care services, for example), personal information is collected and stored on your patient record to ensure that you receive the best and most appropriate care and treatment. The information collected can also be used by and provided to other organisations for purposes beyond your individual care, for example, to provide better health and care for you, your family and future generations by:

- Improving the quality and standards of care provided
- Research into the development of new treatments
- Preventing illness and diseases
- Monitoring safety
- Planning services.

Information about your health and care is confidential and can only be used where allowed by law. Mostly, information used for research and planning is anonymised so that you cannot be identified; your confidentiality is maintained.

You can choose whether you want your confidential information to be used in this way. If you are happy with this use of your information, you do not need to do anything. If you wish to opt out, your confidential information will be used only to support your individual care.

You can register your choice and find out more at [nhs.uk/your-nhs-data-matters](https://nhs.uk/your-nhs-data-matters) – including

- What is meant by ‘confidential patient information’
- Examples of when confidential patient information is used for individual care and examples of when it is used for purposes beyond individual care
- The benefits of sharing data and who uses it
- How your data is protected
- Situations where opt-out will not apply

You can change your choice at any time.

Your information will not be shared with insurance companies or used for marketing purposes without your specific agreement.

### **Keeping your information safe**

We store your personal information securely on our practice computer system. Your information cannot be accessed by those who do not work at the practice; only those working at the practice have access to your information. They understand their legal responsibility to maintain confidentiality and follow practice procedures to ensure this.

We take precautions to ensure security of the practice premises, the practice filing systems and computers.

We use high-quality specialist dental software to record and use your personal information safely and effectively. Our computer system has a secure audit trail and we back-up information routinely.

We use cloud computing facilities for storing some of your information. The practice has a rigorous agreement with our provider to ensure that we meet the obligations described in this policy and that we keep your information securely.

We keep your records for 10 years after the date of your last visit to the Practice or until you reach the age of 25 years, whichever is the longer. At your request, we will delete non-essential information (for example some contact details) before the end of this period.

Should the practice close permanently, the above time frame for storage remains in place and with our current Patient Software provider. Patients will be informed of the opportunity to access their information before the practice closes. Furthermore, patients will be given contact details of our Patient Software provider for future access should they require.

## Access to your information and other rights

You have a right to access the information that we hold about you and to receive a copy. We do not usually charge you for copies of your information; if we pass on a charge, we will explain the reasons.

You can also request us to

- Correct any information that you believe is inaccurate or incomplete. If we have disclosed that information to a third party, we will let them know about the change.
- Erase some of the information we hold. For legal reasons, we may be unable to erase certain information (for example, information about your dental treatment). However, we can, if you ask us to, delete some contact details and other non-clinical information.
- Stop using your information – for example, sending you reminders for appointments or information about our service. Even if you have given us consent to send you marketing information, you may withdraw that consent at any time.
- Stop using information if you believe the information is inaccurate or you believe we are using your information illegally.
- Supply your information electronically to another dentist.

If we are relying on your consent to use your personal information for a particular purpose, you may withdraw your consent at any time and we will stop using your information for that purpose.

All requests should be made by email to our Dr Naga Narra at [abercrombie-smile@outlook.com](mailto:abercrombie-smile@outlook.com)

## If you do not agree

If you do not wish us to use your personal information as described, you should discuss the matter with your dentist. If you object to the way that we collect and use your information, we may not be able to continue to provide your dental care.

If you have any concerns about how we use your information and you do not feel able to discuss it with your dentist or anyone at the practice, you should contact The Information Commissioner's Office (ICO), Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF (0303 123 1113 or 01625 545745).
